

BD Emerald™ Syringe For General Purpose Use

A Step Toward A Greener Future

A new general purpose syringe inspired by BD's ongoing commitment to global health

Achieving Global Performance Standards

Every second of every day, approximately 220 BD syringes are used worldwide.

Based on this global presence, as well as over 100 years of hypodermic innovation, BD has created design and process specifications for the BD Emerald™ Syringe that help ensure it will consistently meet performance standards such as ISO 7886-1 and ISO 594.

BD Emerald™ Syringes must meet over forty specific criteria before they are qualified for use. BD's passion for

ongoing improvement continues to raise the bar of product reliability.

Reducing Environmental Impact

Because human health and a healthy environment are inseparable, BD is dedicated to the design, manufacture and distribution of safe, effective medical technology products which help to minimize environmental impact.

The BD Emerald™ product line has been produced in a more sustainable manner, with reduction in material.

If half of the world's syringes could be converted to BD Emerald™ syringes,

Helping all people live healthy lives

15,000,000kg of waste could be saved per year. This is the equivalent combined weight of approximately 200,000 people –enough to fill two Olympic stadiums!

BD Emerald™ Syringe.

A Step Toward A Greener Future.

BD Emerald™ Syringe For General Purpose Use

Specialized Design Features Benefit Clinicians, Patients and the Environment

Designed With:

Each BD Emerald™ Syringe:

- Addresses clinical needs globally
- Meets quality standards throughout the world
- Reduces environmental impact
- PLUS - Offers you BD's full array of World Class Sharpness needles

Flange Size and Shape
To provide stability and comfort during use

Textured Thumb Press
To reduce slippage during administration

Does not contain natural rubber latex.

Cat. No. Description

307727	BD Emerald™ 2ml syringe, luer slip centric tip
307731	BD Emerald™ 5ml syringe, luer slip centric tip
307736	BD Emerald™ 10ml syringe, luer slip centric tip
